

Component Location inside the BBC Microcomputer

The diagram above shows the approximate locations of components inside the BBC Microcomputer. The diagram is a view of the top left-hand section of the circuit board seen from the keyboard towards the back of the computer.

The locations are given for motherboard issues 4 & 7. In earlier issues some of the components are in slightly different places. Please verify the location of components before attempting to modify an issue 1, 2 or 3 board.

PCB Links inside the BBC Microcomputer

This diagram shows the BBC microcomputer circuit board. The various links which must be changed when fitting the Econet interface are marked with arrows.
