

## ACORN A3020/A4000 ECONET LEAD

This is a 15-way D-type plug at the Archimedes end to a 5-pin 180 degree DIN plug at the Econet end, originally introduced for use with the A3020 and A4000.

The same lead is also used for the Econet NIC which can be fitted to an Acorn A7000 or RISC PC.

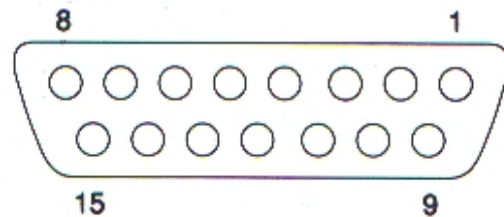

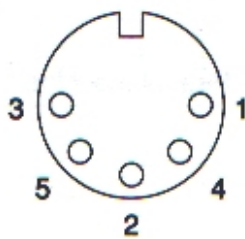

The pinouts are as below:

### 5-pin 180° DIN connector

1  
2  
3  
4  
5

### 15-way D-type connector

6  
7  
8  
14  
15

Connections viewed from solder side

15-way D-type plug - Maplin part number BK58N

15-way D-type hood - Maplin part number FP28F
