

ACORN A4 ECONET LEAD

This is a 6-pin mini-DIN type plug (with the north-east pin removed) at the Acorn A4 end to a 5-pin 180 degree DIN plug at the Econet socket box end.

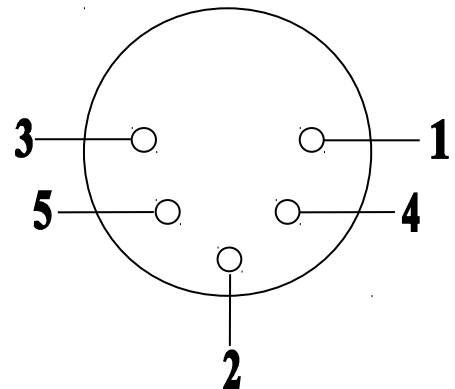

The two notches in the mini-DIN plug are at the top.

The diagrams below are as viewed from the solder side of the plug, or looking into the socket from the outside of the computer or socket box.
